

WORKPLACE AND WORK BASED LEARNING

Duration:	1 day
Max. Participants:	30
Fees:	Non member : \$590.00
	AICPT member: \$500.00

About the programme

This workshop is designed to provide a framework to effectively plan and implement the work place learning pathway.

Work based learning is the concept of lifelong learning. Over the years using this method for learning and assessment has grown in response to industry demand for flexibility and customization to reflect that the workplace can be a great environment to learn and develop skills; however with the result in some instances of the implementation of 'poor practice'.

This method is not 'the easy one' for trainers and assessors and as participants will learn through this program it requires the same preparation, implementation, monitoring and review as any delivery and assessment method.

Intended for

- Trainers and assessors who deliver or will be delivering and assessing on the job
- Trainers and assessors of on the job trainees
- Training coordinators/Workplace supervisor/Team Leaders overseeing the process.

Contents

- Establish the work place learning environment
- Plan for work place learning to occur
- Implement the work place learning plan
- Monitor progress of and review the plan.

Training methodology

Teaching by group participation, case studies and role plays probably describes the training methodology most accurately. Participants will be actively involved in the learning and be assessed on practical techniques during the programme.

Workshop outcome

On completion of the programme, participants should be able to apply the practical skills to plan and implement workplace learning in their workplace environment.

As with all AICPT training programmes, we strive to effect actual change back at the workplace through effective and practical outcomes based training.

To enrol for this workshop, complete the Continuing Professional Development (CPD) course enrolment form and email to info@aicpt.org.au
